Subject index to Volume 48

Acne

CAH carriers in adult females 209

Acromegaly

ectopic secretion of GHRH and ACTH (Case report) 243

gonadal status and bone density 59

hypertension in 149

long-acting octreotide in 311

ACTH

abnormalities of secretion in obesity 603

ectopic secretion (Case report) 243

hypersensitivity syndrome 129, (Commentary) 135

low dose test in chronic fatigue syndrome 733

precursors (Review) 251

stimulation test (Letter) 124

Addison's disease

adrenomedullin in 145

tuberculous, and adrenal function 355

Adrenal function

in precocious puberty 555

in tuberculous Addison's disease 355

Adrenal hyperplasia

dried blood screening for CAH 757

genotype-phenotype analysis of 21-hydroxylase

deficiency 707

Adrenal incidentalomas

dexamethasone suppression test and 627

imaging (Review) 379

subclinical Cushing's syndrome and 89

Adrenal tumour

LH-secreting, and precocious puberty (Case report) 367

Adrenomedullin

in Addison's disease 145

Alendronate

treatment of osteoporosis in Cushing's disease 655

Amino acids

altered pattern in liver cirrhosis 175

Anorexia nervosa

diurnal variations of serum leptin 761

Antibodies

thyroid peroxidase autoantibodies 803

thyroid-stimulating blocking 17

thyrotrophin receptor 445

Arginine tolerance tests

diagnosis of GHD in adulthood 109

Aromatase

in human CNS 325

Autoantibodies

thyroid peroxidase, in old age 803

Blood screening

for congenital adrenal hyperplasia 757

Body composition

impact of HRT and tibolone 691

Body mass

as determinant of thyroid size 701

Body weight

as determinant of thyroid size 701

in hyperprolactinaemia 547

impact of HRT and tibolone 691

Bone

BMD and gonadal status in acromegaly 59

BMD in long-term GH therapy 463

BMD and menstrual disturbances 169

BMD and replacement thyroxine 229

cross-sex hormone administration and 347

metabolism and long-term GH therapy 561

remodelling markers in GH therapy 455

subclinical hyperthyroidism and bone loss 285

urinary markers in diabetes mellitus 317

Bromocriptine therapy

GH secretion and prolactinoma 103

Calcium

abnormalities of calcium-sensing receptor (Commentary)

257

absorption in spinal osteoporosis 163

in hysteretic PTH-calcium relationship 725

Carbimazole

in treatment of Graves' disease 585, 635

Carbohydrate tolerance

effects of long-term GH therapy 795

Carcinoid tumour

ectopic secretion of GHRH and ACTH (Case report)

243

Cardiac function

in adult GHD 137

Cardiovascular disease

lipid metabolism, hypopituitarism and GHD (Letter) 525

Children

dried blood screening for CAH in newborns 757

GH and cyproterone therapy for short boys 53

IGFBP-1 in obesity 487

IGF-I and growth retardation in liver disease 747

leptin and insulin in liver disease and transplantation

(Rapid communication) 401

LH-secreting tumour and precocious puberty (Case

report) 367

- radiotherapy in pituitary-dependent Cushing's disease (Case report) 663
- short stature and IGF-I generation test 719
- Chronic fatigue syndrome
